VOLUME 48, 1999

CONTENTS VOLUME 48 NUMBER 1 JANUARY 1, 1999

Editorial

Dunnett, S. B. 1

Review Article

Effects of alcohol on the synthesis and expression of hypothalamic peptides.
Dulce Madeira, M., and M. M. Paula-Barbosa 3

Articles

Borna disease virus-induced hippocampal dentate gyrus damage is associated with spatial learning and memory deficits.
Rubin, S. A., P. Sylves, M. Vogel, M. Pletnikov, T. H. Moran, G. J. Schwartz, and K. M. Carbone 23

Regional distribution and control of tyrosine hydroxylase activity in the quail brain.
Baillien, M., A. Foidart, and J. Balthazart 31

Changes in NADPH-diaphorase positivity induced by status epilepticus in allocortical structures of the immature rat brain.
Kubová, H., R. Druga, R. Haugvicová, M. Škutová, and P. Mareš 39

Modulation of 5-hydroxytryptamine release in hippocampal slices of rats: Effects of fimbria-fornix lesions on 5-HT_{1B}-autoreceptor and α_2-heteroreceptor function.
Jackisch, R., A. Haaf, H. Jeltsch, C. Lazarus, C. Kelche, and J.-C. Cassel 49

Dexamethasone effects on cerebral protein synthesis prior to and following hypoxia-ischemia in immature rat.
Tuor, U. I., J. J. Manley, C. Fyfe, and S. Bascaramurty 61

Nucleus basalis injections of N-methyl-D-aspartate enhance memory of rats in the double Y-maze.
Mason, K. I., P. E. Mallet, K. Jhamandas, R. J. Boegman, and R. J. Beninger 65

Calcium currents of embyronic and adult neurons in serum-free culture.
Collings, M. A., G. J. Brewer, and M. S. Evans 73

Tenascin-C expression in the trunk of wild-type, *cyclops* and *floating head* zebrafish embryos.
Tongiorgi, E. 79

Rapid expression of polymorphic ovine prion proteins and studies on their protease sensitivity.
Dear, D. V., T. J. Fitzmaurice, P. J. A. Goymer, and S.-J. Richards 89

Gonadotrophin-releasing hormone and oxytocin secretion from the hypothalamus *in vitro* during pro-oestrus: The effects of time of day and melatonin.
Evans, J. J., S. Janmohamed, and M. L. Forsling 93

Autoradiography of [^{3}H]glutamate binding during pentobarbital tolerance and withdrawal in the rat.
Jang, C.-G., S. Oh, H. Zhu, and I. Kang Ho 99

Single-unit activity of dorsomedial arcuate neurons and diurnal changes of tuberoinfundibular dopaminergic neuron activity in female rats with neonatal monosodium glutamate treatment.
Lin, J.-Y., and J.-T. Pan 103

Acute "binge" cocaine increases mu-opioid receptor mRNA levels in areas of the rat mesolimbic mesocortical dopamine system.
Yuferov, V., Y. Zhou, R. Spangler, C. E. Maggos, A. Ho, and M. J. Kreek 109

Different effects of unilateral and bilateral hippocampal lesions in rats on the performance of radial maze and odor-paired associate tasks.
Li, H., K. Matsumoto, and H. Watanabe 113

CONTENTS VOLUME 48 NUMBER 2 JANUARY 15, 1999

Review Articles

Genes and susceptible loci of Alzheimer's disease.
Shastry, B. S., and F. J. Giblin 121

Transmitters involved in antinociception in the spinal cord.
Fürst, S. 129

Articles

Immunochemical localization of the metabotropic glutamate receptors in the rat heart.
Gill, S. S., O. M. Pulido, R. W. Mueller, and P. F. McGuire 143

Historadioautographic localisation of oxytocin and vasopressin binding sites in the central nervous system of the merione (*Meriones shawi*).
Rabhi, M., M. E. Stoeckel, A. Calas, and M. J. Freund-Mercier 147

Are neuronal markers and neocortical graft-host interface influenced by housing conditions in rats with cortical infarct cavity?
Zeng, J., L.-R. Zhao, C. Nordborg, B. Mattsson, and B. B. Johansson 165

Effects of gonadal hormones on the morphology of neurons from the medial amygdaloid nucleus of rats.
Rasia-Filho, A. A., R. G. Londero, and M. Achaval 173

Transient entrainment of a circadian pacemaker during development by dopaminergic activation in Syrian hamsters.
Grosse, J., and F. C. Davis 185

Serotonin innervation of *Lurcher* mutant mice: Basic data and manipulation with a combination of amantadine, thiamine and L-tryptophan.
Le Marec, N., C. Hébert, M. I. Botez, T. Botez-Marquard, L. Marchand, and T. A. Reader 195

Tyrosine improves cognitive performance and reduces blood pressure in cadets after one week of a combat training course.
Deijen, J. B., C. J. E. Wientjes, H. F. M. Vullinghs, P. A. Cloin, and J. J. Langefeld 203

Relation of bimanual coordination to activation in the sensorimotor cortex and supplementary motor area: Analysis using functional magnetic resonance imaging.
Toyokura, M., I. Muro, T. Komiya, and M. Obara 211

Interaction of benztropine and haloperidol actions on rat substantia nigra dopamine cell electrophysiological activity *in vivo*.
Todd, C. L., and A. A. Grace 219

Immune stimulation induces Fos expression in brainstem amygdala afferents.
Tkacs, N. C., and J. Li 223

CONTENTS VOLUME 48 NUMBER 3 FEBRUARY 1999

Review Articles

Cellular mechanisms of hypoxic injury in the developing brain.
Mishra, O. P., and M. Delivoria-Papadopoulos 233

The parabrachial nucleus and conditioned taste aversion.
Reilly, S. 239

Articles

Selective stabilization of microtubules within the proximal region of developing axonal neurites.
Shea, T. B. 255

Noradrenergic responses of neurones in the mediolateral part of the lateral septum: α_1-adrenergic depolarization and rhythmic bursting activities, and α_2-adrenergic hyperpolarization from guinea pig brain slices.
Carette, B. 263

Kainic and domoic acids differentially affect NADPH-diaphorase neurons in the mouse hippocampal formation.
Nagatomo, I., Y. Akasaki, M. Uchida, M. Tominaga, S. Kuchiiwa, S. Nakagawa, and M. Takigawa 277

Proactive influence of a surgical stressor on locomotor activity, exploration and anxiety-related behaviour following acute footshock in the mouse.
Zacharko, R. M., G. MacNeil, P. D. Mendella, and A. L. O. Hebb 283

Localisation of dehydroepiandrosterone sulphotransferase in adult rat brain.
Aldred, S., and R. H. Waring 291

Social stress of variable intensity: Physiological and behavioral consequences.
Zelena, D., J. Haller, J. Halász, and G. B. Makara 297

Chronic stress sensitizes frontal cortex dopamine release in response to a subsequent novel stressor: Reversal by naloxone.
Cuadra, G., A. Zurita, C. Lacerra, and V. Molina 303

Excitation of oxytocin cells in the hypothalamic supraoptic nucleus by electrical stimulation of the dorsal penile nerve and tactile stimulation of the penis in the rat.
Honda, K., M. Yanagimoto, H. Negoro, K. Narita, T. Murata, and T. Higuchi 309

Involvement of endogenous opioids and ATP-sensitive potassium channels in the mediation of apomorphine-induced antinociception at the spinal level: A study using EMG planimetry of flexor reflex in rats.
Hu, W.-M., Y.-M. Kang, and J.-T. Qiao 315

An age-related decline in striatal taurine is correlated with a loss of dopaminergic markers.
Dawson, Jr., R., M. A. Pelleymounter, M. J. Cullen, M. Gollub, and S. Liu 319

Complement depletion does not reduce brain injury in a rabbit model of thromboembolic stroke.
Lew, S. M., C. E. Gross, M. M. Bednar, S. J. Russell, S. P. Fuller, C. L. Ellenberger, and D. Howard 325

Effects of oral administration of the competitive *N*-methyl-D-aspartate antagonist, CGP 40116, on passive avoidance, spatial learning, and neuromotor abilities in mice.
Hauben, U., R. D'Hooge, E. Soetens, and P. P. De Deyn 333

Localization and source of γ aminobutyric acid immunoreactivity in the isthmic nucleus of the frog *Rana esculenta*.
Pollák, E., G. Lázár, R. Gábriel, and S.-R. Wang 343

CONTENTS VOLUME 48 NUMBER 4 MARCH 1, 1999

History of Neuroscience

The gospel of the fossil brain: Tilly Edinger and the science of paleoneurology.
Buchholtz, E. A., and E.-A. Seyfarth 351

Articles

Brain tumor development in rats is associated with changes in central nervous system cytokine and neuropeptide systems.
Ilyin, S. E., D. Gayle, I. González-Gómez, M. E. Miele, and C. R. Plata-Salamán .. 363

Neurotrophin-like immunoreactivity in the human hippocampal formation.
Quartu, M., M. L. Lai, and M. Del Fiacco 375

Injection of *Xenopus* oocytes with mRNA from cultured neurons induces new currents and susceptibility to the damaging action of ruthenium red.
Velasco, I., M. Covarrubias, and R. Tapia 383

Involvement of nitric oxide and nitric oxide synthase activity in anticonvulsive action.
Jayakumar, A. R., R. Sujatha, V. Paul, K. Puviarasan, and R. Jayakumar 387

Effects of metabolic alterations on dopamine release in an *in vitro* model of neostriatal ischaemia.
Toner, C. C., and J. A. Stamford 395

Intracranial self-stimulation in the parafascicular nucleus of the rat.
Vale-Martínez, A., G. Guillazo-Blanch, L. Aldavert-Vera, P. Segura-Torres, and M. Martí-Nicolovius 401

Evaluation of the elevated T-maze as an animal model of anxiety in the mouse.
Jardim, M. C., R. L. Nogueira, F. G. Graeff, and R. L. Nunes-de-Souza 407

Thrombospondin expression in nerve regeneration I. Comparison of sciatic nerve crush, transection, and long-term denervation.
Hoffman, J. R., and K. S. O'Shea 413

Thrombospondin expression in nerve regeneration II. Comparison of optic nerve crush in the mouse and goldfish.
Hoffman, J. R., and K. S. O'Shea 421

Effects of assisted feeding on Wobbler mouse motoneuron disease and on serotonergic and peptidergic sprouting in the cervical spinal ventral horn.
Bose, P., R. Fielding, and L. L. Vacca-Galloway 429

Sertoli cells decrease microglial response and increase engraftment of human hNT neurons in the hemiparkinsonian rat striatum.
Willing, A. E., J. J. Sudberry, A. I. Othberg, S. Saporta, S. G. Poulos, D. F. Cameron, T. B. Freeman, and P. R. Sanberg 441

Amphetamine dose dependently disrupts prepulse inhibition of the acoustic startle response in rats within a narrow time window.
Sills, T. L. 445

Muscarinic M_1 and M_3 receptors are present and increase intracellular calcium in adult rat anterior pituitary gland.
Pintér, I., G. Moszkovszkin, Z. Némethy, and G. B. Makara 449

CONTENTS VOLUME 48 NUMBER 5 MARCH 15, 1999

History of Neuroscience

Cutaneous sensory spots and the "law of specific nerve energies": History and development of ideas.
Norrsell, U., S. Finger, and C. Lajonchere 457

Review Articles

GABA-ergic neurons and the neurobiology of schizophrenia and other psychoses.
Keverne, E. B. 467

A working memory "theory of relativity": Elasticity in temporal, spatial, and modality dimensions conserves item capacity in radial maze, verbal tasks, and other cognition.
Glassman, R. B. 475

Articles

Effects of mu, kappa, and delta opioid receptor agonists and antagonists on rat hypothalamic noradrenergic neurotransmission.
Yilmaz, B., and D. P. Gilmore 491

Relationship between modulation of the cerebellorubrospinal system in the *in vitro* turtle brain and changes in motor behavior in rats: Effects of novel sigma ligands.
Matsumoto, R. R., W. D. Bowen, B. R. de Costa, and J. C. Houk 497

Polysaccharide mannan components of *Candida albicans* and *Saccharomyces cerevisiae* cell wall produce fever by intracerebroventricular injection in rats.
Doğan, M. D., H. Ataoğlu, Ö. Ataoğlu, and E. S. Akarsu 509

Region-specific alterations in the concentrations of catecholamines and indoleamines in the brains of young and old F344 rats after L-deprenyl treatment.
ThyagaRajan, S., S. Y. Stevens, and D. L. Felten 513

Effects of the alpha antagonists and agonists injected into the lateral hypothalamus on the water and sodium intake induced by angiotensin II injection into the subfornical organ.
Araújo Almeida, N. A., V. R. Antunes, W. Abrão Saad, and L. A. de Arruda Camargo 521

Nicotine phase shifts the 6-sulphatoxymelatonin rhythm and induces c-Fos in the SCN of rats.
Ferguson, S. A., D. J. Kennaway, and R. W. Moyer 527

Induction of presenilins in the rat brain after middle cerebral arterial occlusion.
Pennypacker, K. R., H. Hernandez, S. Benkovic, D. G. Morgan, A. E. Willing, and P. R. Sanberg 539

Midlatency auditory-evoked potentials in the rat: Effects of interventions that modulate arousal.
Miyazato, H., R. D. Skinner, M. Cobb, B. Andersen, and E. Garcia-Rill 545

CONTENTS VOLUME 48 NUMBER 6 APRIL 1999

Articles

A stereotaxic atlas of the forebrain of the bank vole (*Clethrionomys glareolus*).
Vandebroek, I., K. Bouche, K. D'Herde, J. Caemaert, F. Roels, and F. O. Ödberg 555

Time-dependent GABA-ergic activity in olfactory bulb and hypothalamus of proestrous rats.
Grigorjev, C., and N. Munaro 569

Glial cells in degenerating and regenerating optic nerve of the adult rat.
Dezawa, M., K. Kawana, H. Negishi, and E. Adachi-Usami 573

Molecular cloning, expression, and activity of zebrafish semaphorin Z1a.
Yee, C. S., A. Chandrasekhar, M. C. Halloran, W. Shoji, J. T. Warren, and J. Y. Kuwada 581

Individual differences in behavioral reactivity: Correlation with stress-induced norepinephrine efflux in the hippocampus of Sprague-Dawley rats.
Rosario, L. A., and E. D. Abercrombie 595

Changes in hippocampal theta following intrahippocampal corticotropin-releasing hormone (CRH) infusions in the rat.
Kortekaas, R., B. Costall, and J. W. Smythe 603

The effect of morphine on responses of nucleus ventroposterolateralis neurons to colorectal distension in the rat.
Yang, S.-W., K. A. Follett, J. G. Piper, and T. J. Ness 609

The developmental changes of the "paraclaustral reservoir" of migrating cells in the rat brain: A study using morphometric and *in situ* DNA end labeling techniques.
Maciejewska, B., B. Berdel, J. Dziewiątkowski, and J. Moryś 615

Modulation of synaptic transmission by nicotine and nicotinic antagonists in hippocampus.
Chiodini, F. C., E. Tassonyi, S. Hulo, D. Bertrand, and D. Muller 623

Chemical stimulation of the laryngopharynx increases Fos-like immunoreactivity in the rat hypothalamus and amygdala.
Peden, E. M., and R. D. Sweazey 629

The effects of ibogaine on dopamine and serotonin transport in rat brain synaptosomes.
Wells, G. B., M. C. Lopez, and J. C. Tanaka 641
